

1 Outline

This software edit and keep the various preset data for ECR/POS.
The data are exchanged to ECR/POS via RS232 or SD Card.

2 System Requirements

2.1 Operating System

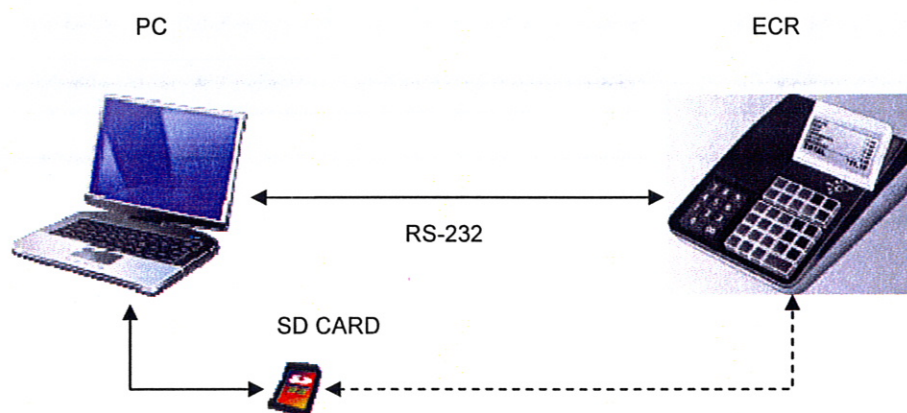

Windows XP Professional SP3 (32-bit edition)
Windows Vista Ultimate SP1 (32-bit edition / 64-bit edition)
Windows 7 Ultimate (32-bit edition / 64-bit edition)

2.2 Runtime Environment

.NET Framework 3.5 or upper version is necessary.

3 System Configuration

This software is working under following system configuration.

In case of RS-232, it can read and write ECR data directly by cable connection between ECR and PC.
In case of SD Card, the data which can be read and write on ECR/POS are stored on SD Card.
The data is exchanged by the SD Card function of ECR/POS.

The software provide above communication function and data read/write function.
