# Next generation features for connected teams.

Wherever you want to take your organisation, moving between print and digital should be as simple as black and white. So, when it comes to your next MFP, choosing one with the most advanced features gives your team everything they need to do their job – even faster and more efficiently.

You could be sending out copies of the latest company news. Or emailing scanned reports to management. Keeping the office ticking over smoothly relies on day-to-day internal processes running like clockwork.

But staying up to speed is just part of what businesses require today. Your workforce also needs to connect when they're out and about. Sharing information and documents via mobile devices or the cloud is vital for getting new business opportunities off the ground. This is where these MFPs come into play – helping to boost your bottom line and energy efficiency to new levels.

# Next generation features for connected teams.

Wherever you want to take your organisation, moving between print and digital should be as simple as black and white. So, when it comes to your next MFP, choosing one with the most advanced features gives your team everything they need to do their job – even faster and more efficiently.

## Comprehensive tools

With fast output, quality and reliability top of mind, our next generation black and white MFPs feature the latest user-focused controls – putting intuitive functionality at your fingertips.

### Click to learn more:

>MX-M6070 >MX-M5070 >MX-M4070  
>MX-M3570 >MX-M3070

**Performance printing:** With five models in the range, print speeds go from 30, up to 60 pages per minute (ppm), on paper sizes up to a maximum of A3W.

**Consistent copies:** Experience clear, crisp image quality on every copy run with our Auto Process Control and Developer Refresh System.

**Flexible finish:** From manual and stapleless stapling to saddle-stitching, it's easy to give your documents that professional touch with a wide variety of finishing options to choose from.

# Next generation features for connected teams.

Wherever you want to take your organisation, moving between print and digital should be as simple as black and white. So, when it comes to your next MFP, choosing one with the most advanced features gives your team everything they need to do their job – even faster and more efficiently.

**Enhanced scanning:** The built-in 150-sheet Duplex Single Pass Feeder (DSPF) can process mixed documents simultaneously at speeds of up to 200 impressions per minute. Multiple scanned documents can be converted into separate files with Multicrop. It's also possible to convert scans into editable Microsoft® Office files and searchable PDFs using Optical Character Recognition (OCR).

Enhanced scanning

## Energy efficiency meets high quality

Achieve the ultimate balance of speed and quality, while cutting your running costs down to size. As well as its low Typical Electricity Consumption (TEC) value, these MFPs let you set times to switch them on and off. The low-melting point of the toner reduces energy consumption and a quick-heating system keeps warm-up time to a minimum.

Eco Recommendation\* is another setting that reminds you to use the MFP in the most environmentally friendly way – and stops any functions you don't need from running at the same time.

# Smarter solutions made simple.

So much more than just a printer. Our MFPs act like the office hub, packed with time-saving technology and functions that free people up to concentrate on what they do best – business.

When an MFP works really well, it's easy to take it for granted. And that's exactly what we intended with our latest black and white devices. Whether it's the fast warm up time, or the simple, intuitive settings on the control panel, we designed every feature to make office life more productive – right from the get-go.

From an IT perspective, you'll find integrating the MFP into your company as seamless and easy as its built-in admin tools.

## Designed around you

Imagine an MFP that senses your approach and then wakes up, ready for you to sign in. You can also set the functions on the customisable home screen to the ones you use most. Simply tilt the large, 10.1" colour LCD touchscreen to an easy-to-view angle. And similar to how you use other smart devices – you can zoom in and out, and drag and drop menu items to create helpful shortcuts.

Customise the home screen with the functions you use most.

Then, if there's anything you're not sure about, an embedded 'quick help' menu will guide you in the right direction. It's also possible to get online from the MFP, thanks to the integrated web browsing function.

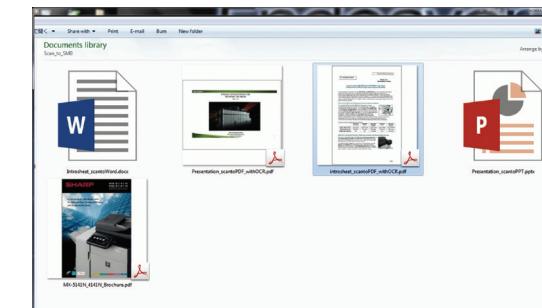

# Smarter solutions made simple.

So much more than just a printer. Our MFPs act like the office hub, packed with time-saving technology and functions that free people up to concentrate on what they do best – business.

## Intuitively helpful at every step

Your printing task might be large, complex and time-consuming, but checking and completing it with our MFPs won't be. Along with features such as Easy Mode and a consistent User Interface, the Advanced Preview function lets you check and edit scanned documents on the MFP itself. Saving you the bother of having to make any last minute changes on your computer before you print.

Scanning is enhanced too with Auto Colour Mode adjusting the colours in the original image to accurate greyscale shades. And rather than having to retype documents you only have as hard copy, you can use the OCR to scan them in various formats, including fully searchable PDFs and editable Microsoft® Office files (Word, PowerPoint and Excel). PCL6 emulation and Genuine Adobe® PostScript® 3™ come as standard.

Digitise and store essential information using OCR.

# Connect anytime, anywhere.

Business isn't fixed to one place anymore – and neither is your workforce. That's why being able to connect and share information securely is crucial, right across the board.

## Access all digital areas

Whether your team is based in the office, or working on- and off-site using phones and tablets, it's easier than ever to keep up to date and in touch. Whatever devices you use in your business, these MFPs offer flexible ways to print, copy, scan and share information stored on your network or in the cloud.

Wherever you are, security is never an issue either. The Print Release function lets you print from any networked MFP in the range at a time that suits you – removing the risk of leaving confidential documents unattended.

# Connect anytime, anywhere.

Business isn't fixed to one place anymore – and neither is your workforce. That's why being able to connect and share information securely is crucial, right across the board.

## Choose how you connect

### The cloud

Print from and scan to the cloud straight from the MFP control panel, without having to constantly enter usernames and passwords. Access popular public cloud storage services in an instant with Single Sign-on, including Google Drive™, Sharepoint®, OneDrive®, Microsoft Online, Box and Cloud Portal Office.

Google Drive

OneDrive

SharePoint

### Mobile

When you're on the move, print from and scan to mobiles and tablets over your wireless LAN network with Sharpdesk Mobile. This works from any app that supports Google Cloud Print™\* or the Android™ printing framework (Sharp Print Service Plugin).

If you're close enough, it's also possible to connect with the MFP via Near Field Communication (NFC). Or use your phone to scan the QR Code® on the MFP. Either way, the configuration is already in place.

## Email

Access your Gmail™ or Microsoft Exchange accounts and send scanned data directly from the MFP to key contacts in your address book.

## USB

Simply choose your saved Microsoft® Office files and print them from a USB stick plugged straight into the MFP.

Plug in and print from your USB memory stick.

## Safe, flexible and secure

Sharing more information digitally does, of course, raise issues around security. But with these MFPs you don't have to make any compromises in order to protect your data. Controlling access is made easier with high security logins and user authentication. While any email communications are kept secure with S/MIME.

For maximum security, as required by government, military and legal organisations, your IT administrator can permanently enable\*<sup>1</sup> the highest level of security. This conforms to the Hard Copy Device Protection Profile (HCDPP\*<sup>2</sup>) standard.

\*<sup>1</sup> Once enabled, some functions may not be available.

\*<sup>2</sup> HCD PP ver1.0 – non Common Criteria

## Discover new ways to streamline your business for the better.

From hard-copy security to easy cloud access, there are lots of new ways to run your business more efficiently.

When you're busy staying on top of business operations, you don't have the time (or money) to waste on office niggles such as misplaced hard-copy documents, or unauthorised users gaining access to valuable resources.

That's where this range of MFPs can help put you in complete control of your organisation's information infrastructure. Not only by transforming everyday printing, copying and scanning tasks. But, when paired with Cloud Portal Office and one or more of our Optimised Software Solutions – you can reach new heights of efficiency and productivity across every business area.

# Discover new ways to streamline your business for the better.

From hard-copy security to easy cloud access, there are lots of new ways to run your business more efficiently.

## **Any time, any place: work together with Cloud Portal Office**

Whether your employees are out and about at meetings, or preparing presentations back at the office, Cloud Portal Office helps keep everyone in the loop.

By storing all the information in a single, clearly indexed place, staff will find it easy to access what they need – from any phone, laptop or tablet – and even the Sharp BIG PAD interactive display.

Scan, index and save documents straight to Cloud Portal Office, then alert colleagues that you've added documents, directly from the MFP. With this cloud-based document management system, there won't be any time wasting going through multiple databases and storage systems, or having to look for misplaced documents. Instead, you can look forward to greater efficiencies right across your business.

# Discover new ways to streamline your business for the better.

From hard-copy security to easy cloud access, there are lots of new ways to run your business more efficiently.

### Optimised Software Solutions

Our comprehensive range of solutions are designed to bring down costs in key areas, increase efficiency and strengthen security.

**Optimised Printing Solutions** help you monitor and manage your print and copy usage. Eliminate unauthorised use, track and recover costs while reducing waste.

**Optimised Scanning Solutions** save time and avoid costly errors by simplifying and automating how you store and share documents – whatever their format.

**Optimised Mobile Solutions** create a more flexible team by helping people connect tablets, phones and laptops simply and securely, so they're always in touch.

**Optimised Workflow Solutions** help restore the productivity you need to achieve and maintain profitable growth by streamlining and simplifying repetitive tasks.

**Optimised Managing Solutions** ease the burden of managing your MFPs and reduce the cost of ownership.

A3 - B5 (offset/staple), A3W - A5R (non offset)

Offset tray (upper): max. 500-sheet paper capacity<sup>\*1</sup>

Stapling capacity: max. 50-sheet multi-position staple<sup>\*1</sup>

Staple position: 3 locations (front, rear or 2 point stitching)

Manual Stapling: 1-point at rear (Flat), 45 sheets (64 g/m<sup>2</sup>), 40 sheets (80 g/m<sup>2</sup>)

Stapleless capacity: max.5-sheet (64 g/m<sup>2</sup>), 4 sheet (65 – 81.4 g/m<sup>2</sup>),

3 sheet (81.5 - 105 g/m<sup>2</sup>)

Stapleless position: 1-point at rear (Slant), A3 - B5

#### Optional Punch Module for MX-FN27 N:

##### MX-PN14C - 2/4 Hole Punch Module

##### MX-PN14D - 4 Hole Wide Punch Module

### 11. MX-RB25 N Paper Pass Unit

Required when using MX-FN28, MX-FN29, MX-FN30 & MX-FN31

### 12. MX-TR20 Job Separator Tray

Requires MX-TU16 Exit Tray Cabinet

### 13. MX-TU16 Exit Tray Cabinet

### 14. MX-FN29 1k Saddle Stitch Finisher

A3W - A5R (offset/staple), A3W - A5R (non offset)

Offset tray (upper): max.1,000-sheet paper capacity<sup>\*1</sup>

Stapling capacity: max. 50-sheet multi-position staple<sup>\*1</sup>

Staple position: 1-point at front (Flat), 1-point at back (Flat), 2 point stitching

Saddle stitch tray (lower): 7 sets (11-15 sheets), 10 sets (6-10 sheets),

20 sets (1-5 sheets). 15 sheets max per set

<sup>\*1</sup> Number of sheets based on 80 g/m<sup>2</sup>.

# Options

## 15. MX-FN28 1k Finisher

A3W - A5R (offset/staple), A3W - A5R (non offset)

Offset tray (upper): max.1,000-sheet paper capacity<sup>\*1</sup>

Stapling capacity: max. 50-sheet multi-position staple<sup>\*1</sup>

Staple position: 1-point at front (Flat), 1-point at back (Flat), 2 point stitching

### Optional Punch Module for MX-FN29 & MX-FN28:

**MX-PN15C - 2/4 Hole Punch Module**

**MX-PN15D - 4 Hole Wide Punch Module**

## 16. MX-FN31 3k Saddle Stitch Finisher

A3 - B5 (offset/staple), A3W - A5R (non offset)

Offset tray (upper): max.3,000-sheet paper capacity<sup>\*1</sup>

Stapling capacity: max. 65-sheet multi-position staple<sup>\*1</sup>

Staple position: 1-point at front (Slant), 1-point at back (Slant), 2 point stitching

Manual Stapling: 1-point at rear (Flat), 45 sheets (64 g/m<sup>2</sup>), 40 sheets (80 g/m<sup>2</sup>)

Stapleless capacity: max.5-sheet (64 g/m<sup>2</sup>), 4 sheet (65 – 81.4 g/m<sup>2</sup>),

3 sheet (81.5 - 105 g/m<sup>2</sup>)

Stapleless position: 1-point at rear (Slant), A3 - B5

Saddle stitch tray (lower): 10 sets (11-15 sheets), 15 sets (6-10 sheets),

25 sets (1-5 sheets). 20 sheets max per set

## 17. MX-FN30 3k Finisher

A3 - B5 (offset/staple), A3W - A5R (non offset)

Offset tray (upper): max.3,000-sheet paper capacity<sup>\*1</sup>

Stapling capacity: max. 65-sheet multi-position staple<sup>\*1</sup>

Staple position: 1-point at front (Slant), 1-point at back (Slant), 2 point stitching

Manual Stapling: 1-point at rear (Flat), 45 sheets (64 g/m<sup>2</sup>), 40 sheets (80 g/m<sup>2</sup>)

Stapleless capacity: max.5-sheet (64 g/m<sup>2</sup>), 4 sheet (65 – 81.4 g/m<sup>2</sup>),

3 sheet (81.5 - 105 g/m<sup>2</sup>)

Stapleless position: 1-point at rear (Slant), A3 - B5

### Optional Punch Module for MX-FN31 & MX-FN30:

**MX-PN16C - 2/4 Hole Punch Module**

**MX-PN16D - 4 Hole Wide Punch Module**
